

Abacus Data Center - 1190 Kennestone Circle, Marietta, GA

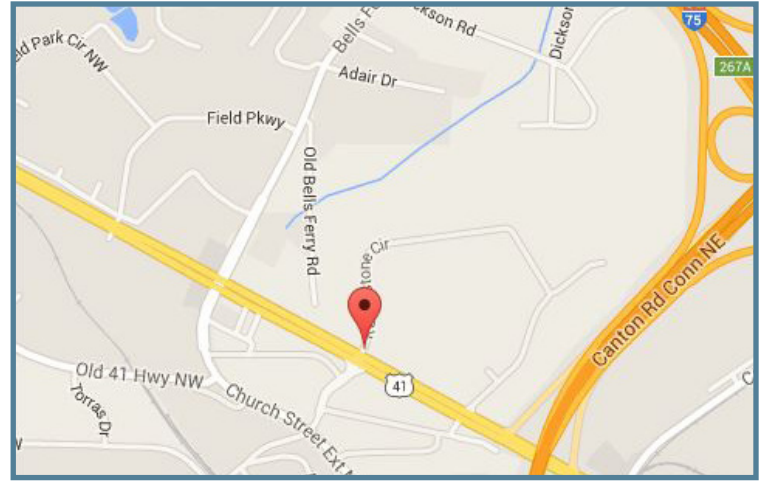

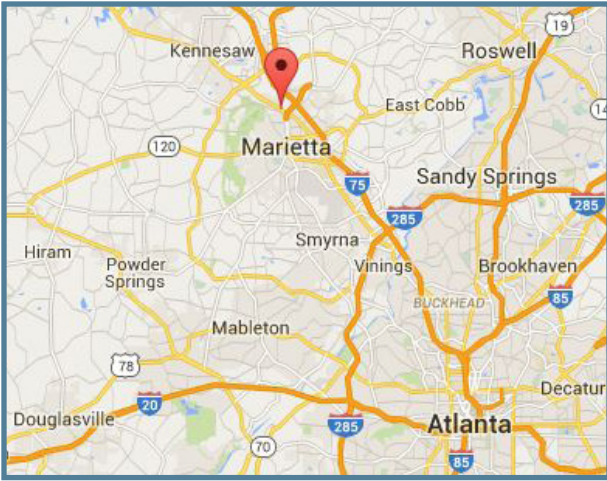

About

As one of the largest IBM i Cloud providers and growing, Abacus has the infrastructure, expertise, and willingness to exceed expectations to migrate your various business workloads to the Abacus Cloud with confidence!

1190 Kennestone Circle in Marietta, Georgia has been the Abacus corporate headquarters since 2006. The 30,000 sq. ft. plus facility is a consolidation of our unique Abacus resources including sales, engineering, technical support, finance, laboratory, a warehouse with a multi-million dollar inventory, datacenter, and training center all under one roof. The Abacus owned and managed 1190 Kennestone Circle Datacenter has been housing and hosting customer environments since 2010.

Why 1190 Kennestone Circle:

- Direct proximity to the vast Abacus unique resources
- Space options by the U and/or dedicated racks
- Redundant UPS power
- Natural gas stand-by generators for continuous operation
- High-density cooling sized for extreme hardware requirements
- 24/7/365 environment monitoring systems
- Card access to building with multi-levels of separate access to the data center
- Interior and exterior monitoring surveillance
- Multi-zone fire and smoke suppression systems and active monitoring
- Network-neutral, multi-carrier networking
